SPS Logic Automatic Refill Version with 3 Sensors and Overfill-Protection

N-1	Control box complet with:					
	Software Automatic-Refill for 2 components (A+B) with					
	Security Alarm light					
	Sensor 1 = Minimum-Level					
	Sensor 2 = Maximum-Level					
	Sensor 3 = Overfill security					
	Contact 1 =Component A-Pump / 24V					
	Contact 2 = Component B - Pump /24V					
	Sensor-Cable with plug					
	Alarm-Light Red					
Reset button						
Power supply 24 V / 230V						

SPS Logic Automatic Refill with 2 Sensors (No Overfill-Protection)

N-2	Control box complet with:					
	Software Automatic Refill for 2 Components					
	Sensor 1 = Minimum-Level					
	Sensor 2 = Maximum-Level					
	Contact 1 = Component A-Pump / 24V					
	Ausgang 2 = Komponente B-Pump /24V					
	Sensor-Cable with plug					
Power supply 24V / 230V						

SPS Logic Autom. Refill with 3 Sensors + Air-Injection+Stirr Component A (Version Foam)

N-3	Control box complet with:					
	Software Automatic Refill					
	Sensor 1 = Minimum-Level					
	Sensor 2 = Maximum-Level					
	Sensor 3 = Overfill security					
	Contact 1 = Component A-Pump /24V					
	Contact 2 = Komponente B-Pump /24V					
	Sensor-Cable with plug					
	Alarm-Light RED					
	Reset Button					
	Power supply 24 V / 230V					
Software Air-Injection by Refill Component A						
Air-Injection (Time adjustable)						
Stirr-Time adjustable						

Connection - Set Pneumatic
