order

Pos.	M	p.	CHF / p.	€ / p.	Total CHF	Total EUR
M 45 - 1	Electric Motor 0.75 kW					
M 45 - 2	Frequency inverter Omron inkl. Filter					
M 45 - 3	Frequency inverter Lenze					
M 45 - 8	Special Belt small (new version)					
M 45 - 9	Belt B= 21mm (old version)					
M 45 - 10	Pulley hardener side (right)					
M 45 - 11	Pulley resin side (left)					
M 45 - 11s	Setting screw mixing ratio					
M 45 - 12	Fix nut extra strong					
M 45 - 13	Ball bearing with circlip					
M 45 - 14	Needle bearing					
M 45 - 15	Shaft for pulley resin side					
M 45 - 16	Shaft for pulley hardener side					
M 45 - 17	Steel gear 12 teeth					
M 45 - 18	Novotex gear 68 teeth with baring					

Precision pump with a double shaft seal. Especially hardened execution also allows the processing of filled systems (chalk etc.). Precise and robust construction pumps for medium and high viscosity.

Precision gear pump		p.	CHF	Euro	CHF	Euro
M 45 - 5	Gear pump BPP (0.64 ccm/U)					
M 45 - 5a	Gear pump BP (0.85 ccm/U)					
M 45 - 5d	Gear pump BM (1.25 ccm/U)					
M 45 - 6	Gear pump BGPP (2.3 ccm/U)					
M 45 - 18	Gear pump BGP (4.7 ccm/U)					
M 45 - 18a	Gear pump BGM (6.8 ccm/U)					
M 45 - 19	Gear pump BGG (9.6 ccm/U)					
M 45 - 19a	Pump shaft seal with hexagonal housing (inkl. 22mm)					
M 45 - 18	Shaft seal blue (2 needed) (22 mm)					
M 45 - 19	Distance pulley Polyamid					
M 45 - 18	Hexagonal coupler for gear pump					
M 45 - 18a	Connector block for big pompe BGPP-BGG					
M 45 - 19	Connector block for small BPPP - BM					
M 45 - 18	Seal Nylon (for Pos. 18)					
M 45 - 19a	Seal Nylon (for Pos. 18a)					

High-precision pump with a double shaft seal.
 Hardened execution specially suited for
 processing and deep viscosen systems
 and smallest flow.
 Upstreamd pass filter is recommended.
 (Pos. 50 and corresponding connectors.)

High-Precision Gear pump's

		p.	CHF	Euro	CHF	Euro
M 45	High-precision pump (0.1 ccm/U)					
M 45	High-precision pump (0.3 ccm/U)					
M 45	High-precision pump (0.6 ccm/U)					
M 45	High-precision pump (1.2 ccm/U)					
M 45	High-precision pump (2.4 ccm/U)					
M 45 - 5p	Shaft seal incl. house					
M 45 - 6a	Hexogonal coupler for high precision gear pump					
M 45	T-piece					
M 45 - 20	Pump pressure gauge 0-60 bar					
M 45 - 21	Set of bolts for covers					
M 45 - 22	Pressure reduction valve 0 - 10 bar					
M 45 - 23	Manometer 0 - 10 bar					
M 45 - 24	non-return valve					
M 45 - 26	Air filter and lubricator unit					
M 45 - 29	Seal O-Ring for material pressure pot					
M 45 - 30	Security valve for material pressure pot					
M 45 - 31	Handle for material pressure pot					
M 45 - 32	Air hose connector					
M 45 - 37	Hose pot-pump resin side					
M 45 - 37a	Hose pot-pump hardener side (PTFE)					
M 45 - 50	Filter 3/4 stainless steel					
M 45 - 50a	Filter insert to M45-50					
M 45 - 51	Pressuretank-Coverseal, square (old version)					
M 45 - 52	Pressuretank-Seal, round (old version)					
M 45 - 53	Pressuretank-Seal, Silicon, square (neu version)					
M 45 - 54	5 lt. + 18 lt. Solvent-Tankseal					
M 45 - 60	1/2" Tankvalve with 2 double nipple					
M 45 - 61	On/Off switch					

protection material

Teflon grease tube à 60g (Valve, pump shaft, spec. hardener))					
Protection grease PU red	can ca. 450 g				
Protection grease PU red	can ca. 900 g				
Protection oil	5 kg				
Hot cleaner	10 kg (not classified as toxic)
